Professional Career

Norman turned professional in 1954, and quickly established himself as one of the top players in the world. He won several tournaments, including the Canadian Open in 1955 and 1956. However, Norman's lack of success in major championships kept him from being considered one of the greatest players of all time.

Despite his lack of major championship victories, Norman was one of the most respected players on the PGA Tour. He was known for his incredible work ethic, and he was always willing to help others improve their game. Norman was also a pioneer in the use of video technology to analyze his

swing, and he was one of the first players to use a launch monitor to track his ball flight.

Retirement and Legacy

Norman retired from the PGA Tour in 1979, and he continued to teach and play golf until his death in 2004. He was inducted into the Canadian Golf Hall of Fame in 1987, and the World Golf Hall of Fame in 2001.

Norman's legacy continues to inspire golfers around the world. He was a true pioneer in the game, and his unorthodox swing proved that there is more than one way to play golf successfully. Norman's story is one of perseverance and triumph, and it serves as a reminder that anything is possible if you set your mind to it.

The Feeling of Greatness

In his book, "The Feeling of Greatness," Norman wrote about the importance of finding your own unique swing and not being afraid to be different. He believed that everyone has the potential to be great, and he encouraged others to never give up on their dreams.

Norman's message is still relevant today. In a world where everyone is trying to conform, it's important to remember that it's okay to be different. If you have a dream, don't let anyone tell you that you can't achieve it. Just keep practicing, and never give up on your dreams.
